

GOT 4.9?

Are you considering applying for a License?

Do you have concerns?

- I'm considering 4.9 but need connectivity now
- Is 50MHz enough spectrum to meet my needs?
- What if other agencies are deploying 4.9GHz radios in my area?
- I have T1s but I'm migrating to IP
- Do 4.9GHz radios have 1+1 backup?

RADWIN's unique PtP Microwave solution assures complete peace of mind in 4.9

- The RADWIN 2000 multi-band radio operates in 2.4, 4.9, 5.3, 5.4 & 5.8GHz!
- Offers unmatched flexibility combined with low latency
- Native T1 & Ethernet at speeds up to 200 Mbps
- Best Price performance
