

Universal Licensed Microwave Antenna (6 – 42 GHz)

CUSTOMER SERVICE

We lead the industry in on-time delivery and we continually strive to design and manufacture the highest quality competitively priced backhaul antennas available today!

ASSEMBLED IN THE USA

RF Engineering & Energy Resource (RFE) designs, assembles, and tests our Universal Licensed Microwave Antenna Line in our Portage MI facility. We support radio OEM's, small cell providers, carriers, distributors, and vertical partners.

CUSTOMIZED PACKAGING

Each antenna ships from our facility in compact light weight packaging designed to optimize logics while reducing transportation costs.

THREE YEAR WARRANTY

Each RFE Antenna leaves our facility fully tested and quality assured. RFE's rugged Universal Antennas provide world-class performance for any application.

- **Universal Modular Chassis**
 - Frequency Range: 6GHz – 42GHz

- **3-Year Warranty**

Here at **RF Engineering & Energy Resource (RFE)**, we make technology simple. Whether you are a Carrier, Service Provider, Government Agency, Enterprise, or Industrial Customer; RFE's Super High Performance Universal Licensed Microwave Antennas offers the next generation feeder system that is simple to exchange and even easier to install.

Until now, with so many radio manufacturers frequencies, sizes, and proprietary interfaces; it was next to impossible to deliver the right product at the right time. With RFE, our **Universal Antenna delivers a modular approach while offering a "one size fits all solution"**. Supporting up to 10 different proprietary radio interfaces, our universal chassis offers a true plug and play experience.
