This webinar will present how EnGenius is augmenting its popular dual-band wireless AC products with the addition of the EAP1200H and ECB1200.

These two new products provide EnGenius with the industry's most comprehensive dual-band indoor and outdoor access point portfolio. They have performance and features that ease deployment, optimize performance and maximize security of the network.

Join EnGenius for a webinar and learn more about the EAP1200H and ECB1200, and how the Electron Series dual-band products provide fast, reliable connectivity in all environments

As an added bonus, EnGenius will be drawing the names of three lucky attendees of \$25.00 amazon.com gift e-cards.
