Outdoor WiFi System

Models: UAP-Outdoor/UAP-Outdoor 5G

Quick Start Guide
Introduction

Thank you for purchasing a UniFi AP-Outdoor series product. This Quick Start Guide is for use with the following models:

<table>
<thead>
<tr>
<th>Model</th>
<th>Operating Frequency*</th>
</tr>
</thead>
<tbody>
<tr>
<td>UAP-Outdoor</td>
<td>2.4 GHz</td>
</tr>
<tr>
<td>UAP-Outdoor 5G</td>
<td>5 GHz</td>
</tr>
</tbody>
</table>

*For detailed specifications, refer to the User Guide on the CD.

Package Contents

- UniFi AP-Outdoor
- Wall Mount Bracket
- Metal Strap
- Quick Start Guide
- UniFi Controller CD with User Guide
- Antennas
- 24V PoE Adapter
- Power Cord
- Screws (Qty. 3)
- Anchors
System Requirements

• Microsoft Windows XP, Windows Vista, Windows 7, or Mac OS X
• Java Runtime Environment 1.6 (or above)
• Web Browser: Mozilla Firefox, Google Chrome, or Microsoft Internet Explorer 8 (or above)

Installation Requirements

• Drill and 6 mm drill bit (for wall-mounting)
• Flathead screwdriver (for pole-mounting)
• Shielded Category 5 (or above) cabling should be used for all wired Ethernet connections and should be grounded through the AC ground of the PoE.

We recommend that you protect your networks from the most brutal environments and devastating ESD attacks with industrial-grade shielded Ethernet cable from Ubiquiti Networks. For more details, visit www.ubnt.com/toughcable
Network Topology Requirements

- A DHCP-enabled network (for the AP to obtain an IP address as well as for the wireless clients after deployment)
- A management station computer running the UniFi Controller software, located either onsite and connected to the same Layer-2 network, or off-site in a cloud or NOC

Sample Network Diagram

1 Please refer to the UniFi Outdoor WiFi System | UAP-Outdoor User Guide on the CD for setting up wireless-linked APs.

2 All UniFi APs support off-site management controllers. See the User Guide for setup details.
Hardware Overview

Note: The Secondary Ethernet Port can be used as an uplink for other devices once they have been adopted.
## LED

</tbody>
</table>
Hardware Installation

The AP is powered by the included PoE (Power over Ethernet) Adapter. To install the AP:

1. Connect an Ethernet cable to the *Main Ethernet Port* on the AP. Connect the other end of the Ethernet cable to the Ethernet port labeled *POE* on the *PoE Adapter*.

2. Connect an Ethernet cable from your LAN to the Ethernet port labeled *LAN* on the *PoE Adapter*.
3. Connect the power cord to the power port on the **PoE Adapter**. Connect the other end of the power cord to a power outlet.

Below is an overview of the Power over Ethernet connections.

**Power Connection Diagram**

*Note:* The AP supports Passive PoE, which works with the included PoE adapter. If you want to power the AP from an 802.3af compliant switch, Ubiquiti Networks offers the optional Instant 802.3af Adapter to instantly transform any PoE device into a fully 48V 802.3af compliant product. Product details are available on our website at [http://ubnt.com/8023af](http://ubnt.com/8023af)
Mounting the UniFi AP-Outdoor

The AP can be mounted on a wall or pole.

Wall Mount

To mount the AP on a wall, use the included *Wall Mount Bracket*, screws, and anchors.

1. Align the *Wall Mount Bracket* to the desired position on a wall.
2. Use a pencil to mark the holes on the wall.
3. Use a drill and 6 mm drill bit to drill the holes in the wall.
4. Insert the 3 screw anchors into the wall.
5. Secure the *Wall Mount Bracket* to the wall by inserting the self-tapping screws into the anchors.
6. Align the notches on the AP with the notches on the *Wall Mount Bracket*, and slide the AP down until it locks into place.

**Pole Mount**

To mount the AP on a pole, use the included *Metal Strap*:

1. Open the *Metal Strap* by turning the locking mechanism counter-clockwise. You can loosen it by hand or use a flathead screwdriver.
2. Straighten out the end of the *Metal Strap* and slide it through the back of the AP.

3. Wrap the *Metal Strap* around the pole and use a flathead screwdriver to tighten the locking mechanism by turning it clockwise.
Antenna Installation

Connect each antenna to an antenna connector by rotating it clockwise.
Software Installation

Insert the UniFi Controller software CD into your CD-ROM drive and follow the instructions for your specific computer type.

Mac Users

1. Click the **Install** icon.

2. Click **Continue** and follow the on-screen instructions to install the software.
3. Go to **Go > Applications** and double-click the **UniFi** icon.

Proceed to **Configuring the UniFi Controller Software** on page 15.

**PC Users**

1. Launch **UniFi-installer.exe**.
2. Click **Install**.

3. If your computer doesn't have Java 1.6 or above installed, you will be prompted to install it. Click **Install** to continue.
4. Click Next.

5. Ensure that the Start UniFi Controller after installation option is checked and click Finish.

Note: The UniFi Controller software can also be launched from Start > All Programs.
Configuring the UniFi Controller Software

1. The UniFi Controller software startup will begin. When the option becomes available, click **Launch a Browser to Manage Wireless Network**.

2. Select your language and country. Click **Next**.

   ![UniFi Controller Software](image)

   **Note:** U.S. product versions are locked to the U.S. Country Code to ensure compliance with FCC regulations.

3. Select the devices that you want to configure and click **Next**.

   ![Select Devices](image)
4. The UniFi Installation Wizard will create a secure, primary wireless network for your devices. Perform the following steps:
   a. Enter the wireless network name (SSID) in the Secure SSID field.
   b. Enter a passphrase to be used for your primary network.
   c. To enable guest access, select **Enable Guest Access** and enter a guest network name in the Guest SSID field.
   d. Click **Next**.

5. Enter an admin name and password to use when accessing the management interface. Confirm your password in the **Confirm** field. Click **Next**.
6. Review your settings. Click **Back** to make changes or **Finish** to save your settings. When finished, you will be redirected to the management interface via your Web browser.

Congratulations, your wireless network is now configured.
A login screen will appear for the UniFi Controller management interface. Enter the admin name and password that you created and click **Login**.

You can manage your wireless network and view network statistics using the UniFi Controller management interface. For information on configuring and using the UniFi Controller software, refer to the User Guide located on the CD.
Installer Compliance Responsibility

Devices must be professionally installed and it is the professional installer's responsibility to make sure the device is operated within local country regulatory requirements.

Safety Notices

1. Read, follow, and keep these instructions.
2. Heed all warnings.
3. Only use attachments/accessories specified by the manufacturer.

⚠️ WARNING: Do not use this product in location that can be submerged by water.

⚠️ WARNING: Avoid using this product during an electrical storm. There may be a remote risk of electric shock from lightning.

Electrical Safety Information

1. Compliance is required with respect to voltage, frequency, and current requirements indicated on the manufacturer's label. Connection to a different power source than those specified may result in improper operation, damage to the equipment or pose a fire hazard if the limitations are not followed.

2. There are no operator serviceable parts inside this equipment. Service should be provided only by a qualified service technician.

3. This equipment is provided with a detachable power cord which has an integral safety ground wire intended for connection to a grounded safety outlet.
   a. Do not substitute the power cord with one that is not the provided approved type. Never use an adapter plug to connect to a 2-wire outlet as this will defeat the continuity of the grounding wire.
   b. The equipment requires the use of the ground wire as a part of the safety certification, modification or misuse can provide a shock hazard that can result in serious injury or death.
   c. Contact a qualified electrician or the manufacturer if there are questions about the installation prior to connecting the equipment.
   d. Protective earthing is provided by Listed AC adapter. Building installation shall provide appropriate short-circuit backup protection.
   e. Protective bonding must be installed in accordance with local national wiring rules and regulations.
General Warranty

UBIQUITI NETWORKS, Inc (“UBIQUITI NETWORKS”) represents and warrants that the Products furnished hereunder shall be free from defects in material and workmanship for a period of one (1) year from the date of shipment by UBIQUITI NETWORKS under normal use and operation. UBIQUITI NETWORKS sole and exclusive obligation under the foregoing warranty shall be to repair or replace, at its option, any defective Product that fails during the warranty period. The expense of removal and reinstallation of any item is not included in this warranty.

The foregoing warranty is exclusive and in lieu of all other warranties, express or implied, including the implied warranties of merchantability and fitness for a particular purpose and any warranties arising from a course of dealing, usage or trade practice with respect to the products. Repair or replacement in the manner provided herein shall be the sole and exclusive remedy of Buyer for breach of warranty and shall constitute fulfillment of all liabilities of UBIQUITI NETWORKS with respect to the quality and performance of the Products. UBIQUITI NETWORKS reserves the right to inspect all defective Products (which must be returned by Buyer to UBIQUITI NETWORKS factory freight prepaid).

No Products will be accepted for replacement or repair without obtaining a Return Materials Authorization (RMA) number from UBIQUITI NETWORKS. Products returned without an RMA number will not be processed and will be returned to Buyer freight collect. UBIQUITI NETWORKS shall have no obligation to make repairs or replacement necessitated by catastrophe, fault, negligence, misuse, abuse, or accident by Buyer, Buyer’s customers or any other parties. The warranty period of any repaired or replaced Product shall not extend beyond its original term.

Warranty Conditions

The foregoing warranty shall apply only if:

(I) The Product has not been subjected to misuse, neglect or unusual physical, electrical or electromagnetic stress, or some other type of accident.

(II) No modification, alteration or addition has been made to the Product by persons other than UBIQUITI NETWORKS or UBIQUITI NETWORK’S authorized representatives or otherwise approved by UBIQUITI NETWORKS.

(III) The Product has been properly installed and used at all times in accordance, and in all material respects, with the applicable Product documentation.

(IV) All Ethernet cabling runs use CAT5 (or above) shielded cabling.

Disclaimer: UBIQUITI NETWORKS does not warrant that the operation of the products is error-free or that operation will be uninterrupted. In no event shall UBIQUITI NETWORKS be responsible for damages or claims of any nature or description relating to system performance, including coverage, buyer's selection of products for buyer's application and/or failure of products to meet government or regulatory requirements.
Returns

In the unlikely event a defect occurs, please work through the dealer or distributor from which this product was purchased.

Compliance

FCC

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operations of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

For MPE and antenna usage details, please visit our website at www.ubnt.com/products

Industry Canada

This Class A digital apparatus complies with Canadian ICES-003.

To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that permitted for successful communication.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil numérique de la classe A est conforme à la norme NMB-003 Canada.
Pour réduire le risque d’interférence aux autres utilisateurs, le type d’antenne et son gain doivent être choisies de façon que la puissance isotrope rayonnée équivalente (PIRE) ne dépasse pas ce qui est nécessaire pour une communication réussie.

Cet appareil est conforme à la norme RSS Industrie Canada exempts de licence norme(s). Son fonctionnement est soumis aux deux conditions suivantes:

1. Cet appareil ne peut pas provoquer d’interférences et
2. Cet appareil doit accepter toute interférence, y compris les interférences qui peuvent causer un mauvais fonctionnement du dispositif.

RF Exposure Warning

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be located or operating in conjunction with any other antenna or transmitter.

Les antennes utilisées pour ce transmetteur doivent être installé en considérant une distance de séparation de toute personnes d’au moins 20 cm et ne doivent pas être localisé ou utilisé en conflit avec tout autre antenne ou transmetteur.

CE Marking

CE marking on this product represents the product is in compliance with all directives that are applicable to it.

Alert Sign (!) Follows CE Marking

Alert sign must be indicated if a restriction on use applied to the product and it must follow the CE marking.
